Work Plan No. B.04-01 BART Internal Strategic Partnering

Scope:

The Partnering session will focus on developing a clear vision for the team to align behind. The team will define the attributes that are needed and identify any existing barriers to collaboration that are preventing a more cohesive team and better working relations. The facilitator will collect and prioritize the strategies and collect them into a report.

To enhance decision-making and implementation of recommendations developed by District staff, the Facilitator may develop Partnering Enhancement Proposals (PEPs). Each PEP will also include an implementation strategy. The PEPs would be vetted and verified and ultimately, signed by the leadership of the strategic internal partnering effort.

Implementing any strategy developed by the strategic internal partnering effort may require guidance, training, and other support. The partnering facilitator will work with District staff to develop this guidance and support.
